Software Engineer with a passion for travel. I love learning new skills, languages, and technologies. Bridging the gap between Web Development and my background in [Graphic Design](#) has given me the creative freedom and technical challenge to embrace tech in my own way. My latest project [Polaroll](#) blends old and new camera technologies into an interactive mobile app that makes the user shake their phone to develop the picture and demonstrates my interest in user-focused, creative tech.

TECHNICAL SKILLS

Languages

- HTML/CSS
- JavaScript
- Python
- Ruby
- Sass
- SQL

Frameworks, tech, etc.

- Adobe CC
- ActiveRecord
- Expo
- Firebase
- Gatsby JS
- Git
- Heroku
- Leaflet
- Postgres
- Postman
- React JS
- React Native
- Ruby on Rails
- SQLite3

EDUCATION

Flatiron School

Software Engineering
Bootcamp Program
Completed July 2020

University of Virginia

B.A. Cognitive Science
Charlottesville, VA
May 2018

TECHNICAL PROJECTS

Polaroll A mobile camera and photo app inspired by the Polaroid Camera. [Github](#), [Demo](#)

- Demonstrates ability to learn new technologies independently and efficiently.
- Integrates device's camera, camera roll, and motion sensors with React Native/Expo.

Candle A birthday reminder app to never forget a friend's birthday. [Github](#)

- Demonstrates proficiency in React JS, Ruby on Rails, and Sass.
- Incorporates Authentication and protect's profile routes for each user.
- Calculates user's age using the built-in datetime object and User data stored in a Rails backend.

Accountabilibuddies A social media app to help accountability groups complete tasks.

[Github](#), [Demo](#)

- Demonstrates skill in pair-programming.
- Built with a custom backend route to delete a joiner class and remove a relationship.
- Deploys full CRUD actions on a complex ERD with five models.

RELEVANT EXPERIENCE

Communications Assistant

Digital Workshop Center, Fort Collins, CO

- Published and optimized SEO of Wordpress blogs.

Oct 2019 - Feb 2020

English Teacher

Auxiliares de Conversación, Andalucía, Spain

Oct 2018 - May 2019

Layout Designer

Freelance, Remote

- Worked directly with photographers and AiOP founder Ed Woodham to design and publish the 2018 AiOP Matter [catalog](#).

Jan 2017 - May 2019

Design Apprentice

Harwood Digital Design, Charlottesville, VA (Remote)

- Developed wireframes for client sites in Adobe XD.
- Populated, updated, and re-formatted client data in CMS.

May 2018 - Oct 2018

Graphic Design & Marketing Intern

University of Virginia, Charlottesville, VA [\[Sample\]](#)

- Designed various programming and marketing materials for the UVA Career Center.
- Worked closely with career counselors to develop the annual career guide, an 80-page resource distributed widely to undergrad students.
- Coordinated the launch of UVA's Internship Placement Program including creating brand guidelines, managing social media marketing, and developing content.

May 2017 - Aug 2018
